SUMMARY

I'm a happy family guy, who loves games, science and technology in general. Mostly, I try to learn everything I can. In my opinion, getting your hands dirty is the best way to learn a new skill.

I'm a hard worker, committed and self learner. Definitely, I'm not a guru jedi rockstar ninja, but I always get my stuff done.

EDUCATION

ICT college of vocational studies 2014 - 2017

Bachelor appl, Internet technologies

Electrotechnical school 'Zemun' 2010 - 2014

Highschool Diploma, Electrician automation
